Remote teaching

Ulster University

Pause for thought

Students may not have access to the internet, a laptop or be able to attend specific timetabled sessions.
Live sessions therefore may not be possible.

Communicate

Use Blackboard: announcements, discussions, internal messages, calendar
Avoid email to students - as other instructors may not see these

Apps

Encourage students to download the Blackboard App and ensure they enable notifications

Plan your design

Consistency of layout, signposting, short bursts of activity, avoid video if possible for accessibility reasons

Reading list

Consider adding your module reading list to your areas within Blackboard

Support

Office for Digital Learning support resources
Blackboard Helpdesk
